## 25 Day Prayer Guide

**Volume VIII**

Dear Friends,

We have reached the end. This prayer guide is the final in a series of eight such guides created for the New York Ministry Network. Our simple goal, all along the way, was to put into your hands detailed information on each school of higher learning, in the state of New York, with the goal of giving you a helpful guide in praying. We believe that God still answers prayer.

In the past ten years we have seen an increase of over 169% in Chi Alpha workers. That is awesome! But we have much more ground to cover. According to the [everycampus.com](http://everycampus.com) website more than 2,000 campuses in the USA still have no known Gospel Witness. So thank you for participating and may God raise up many workers for His harvest field.

Luke 10.2 *“The harvest is plentiful, but the laborers are few; therefore, plead with the Lord of the harvest to send out laborers into His harvest”* (NASB).

In this guide, you will find that we have tried to enumerate all of the Christian organizations on each campus. (It is likely that we missed a few.) Please pray for the student leaders of the Christian groups listed. They are the “soldiers on the front lines”. Some of them may not even know that they are in spiritual warfare. Pray that the Holy Spirit awakens them to that fact. (Some student groups show a question mark instead of a student leader. This happens only when a student leader or advisor could not be located.)

You will notice that several schools have chaplains and ministry staff. We never know where they stand on Christ, Sin, Biblical Authority, etc. Pray that, regardless of where they stand, that God works in them and through them to bring light, hope and salvation to many, many students.

Also, please notice, that on each page, we have included several prayer requests. These prayer requests are provided as a template. Ask God to show you how to pray for each school. Do not be “hemmed in” by the prayer requests listed.

This prayer guide was compiled with data from the list found at “The National Center for Education Statistics” ([NCES](http://nces.edu)) and from each school’s own website. The statistics for the international students were found at a website called “[College Factual](http://CollegeFactual.com)”. The international student statistics for each school are located under the “Student Life” tab for each school.

Thank You again for investing time into this next generation. Only eternity will tell what we helped along and what we were able to hinder.

Be Blessed,  
Joe and Heidi Barrale

They value close interactions with their students and the opportunity to engage with students outside the classroom setting, whether it's meeting informally to continue a discussion started in the classroom or collaborating in the laboratory on new research."
